This small station, which was originally on the verge of abandonment, has become a nationally famous tourist destination because of a cat named "Tama".</p> <p>Legendary Cat Webmaster - Tama</p> <p>In 2006, Wakayama Electric Railway introduced a "cat stationmaster" system at Kishi Station due to labor costs, and officially appointed the 8-year-old three-flower cat "Kotama" (Tama), a cat resident in the station, as the station manager.</p> <p>The stationmaster "goes to work" every day to patrol the station and greets visiting passengers cordially, and his cute image quickly attracted media attention and attracted a large number of tourists to check in.</p> <p>Save an endangered railway line</p> <p>Due to the decrease in passengers, the Kishigawa Line once faced a crisis of abandonment. The appearance of the Tama stationmaster not only brought popularity, but also led to the development of the economy along the line: from surrounding shops and souvenirs to the "cat-themed train", and even the construction of a new station building at Kishi Station in the shape of a cat, which has become a symbol of regional rejuvenation.</p> <p>The "cat culture" that is inherited and continued</p> <p>After the death of Stationmaster Tama (who passed away in June 2015), he was revered as the "Honorary Permanent Stationmaster", and his successor, the cat "Nitama" (Nitama), continued to serve as the stationmaster, maintaining people's love for this heartwarming story.</p>

	<p>Kishi Station is not only a transportation facility, but also a touching story of mutual protection between people and animals, communities and railways.</p> <p>There are three special trains on the whole line: Xiaoyu, strawberry and toys, and in addition to the cat stationmaster, there are also meow cafes, meow seals, and meow houses. The old train station is beautifully furnished and sells all kinds of cute peripherals, making it a must-visit attraction for cat lovers.
